

ABOUT ME

I am a Web Developer based in Leeds, West Yorkshire. Who enjoys designing and building websites, with multiple languages and tools. Currently working with Ruby on Rails site, with multiple side projects using vanilla Javascript, reactJS and other frameworks.

I moved up to Leeds for University in 2012, where I studied Creative Media Technology at Leeds Metropolitan University, to graduate in 2015 with a 2.1. In the Course I had to develop and demonstrate both design and programming skills in variety of projects such as building responsive dynamic websites, building mobile game in Unity, both 2D and 3D animation, and visual brand communication.

WORK EXPERIENCE

SHIFT COMMERCE

WEB DEVELOPER

AUGUST 2018 – PRESENT

Currently, at Shift Commerce I am part of the team who works on our companys major client e-commerce website, where we push to be preformance first e-commerce website using mulitple technologies such as Ruby on Rails, ES6, SCSS and Lamda Functions

In this time I have gained and push many of my skills such as working in agile scrum, client comuncation, planning sprints, performing demos of new features to the client and assisted in leading a team.

SPORTSSHOES.COM

FRONT END DEVELOPER

FEBRUARUY 2018 –AUGUST 2018

While at Sportshoes.com my responsibilities included building new brand store pages for their several clients, based on the designs and specifications given by the design team.

Other responsibilities in the position include updating and adding new features such as content sliders, banner images, videos, interactive elements and page translation to other languages, while also pushing to bring the site to current web standards.

NETWORX RECRUITMENT

DIGITAL DESIGNER / DEVELOPER

APRIL 2016 – DECEMBER 2017

During my time at Networx Recruitment, I was responsible for design and building their recruitment system, such as their careers page both custom and template, job adverts, onboarding sites candidate experience branding and admin panel, to match the client business brand. I also helped run Housing Jobs social media pages, set up social media apps for clients twitter and facebook pages.

A major development I did during my position at Networx Recruitment is to allow the all clients onboarding sites to work on multiple devices, allowing candidates to access their onboarding information and documents from any device.

EDUCATION

2012 – 2015

Leeds Metropolitan University

BSc Creative Media Technology

The Course allowed me to develop and demonstrate my coding skills with a variety of projects, such as building a mobile game in C# and unity, building responsive websites for use on different devices, and build fully interactive web applications with javascript and jQuery.

During my time at University, I had several group projects which involved being co-operative and maintaining a consistent brand across the whole team work.
